Special Issue

Recent Advances in Antiviral Natural Products

Message from the Guest Editor

Natural products (NPs) extracted from medicinal plants and marine life have been suggested as excellent sources for the development of novel pharmaceuticals. In past years, many NPs have been identified to target the viral life cycle, including viral entry, replication, assembly, and release. In addition, host factors associated with viral infection have also been identified as novel targets of NPs. Particularly, NPs with antiviral and immune-modulation activities are potential agents against emerging COVID-19 infectious diseases. For this Special Issue, we welcome contributions directed at the discovery of antiviral natural products, as well as at mechanistic studies of extracts and NPs against viruses.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
