Special Issue

State-of-the-Art Cereal Virus Diseases in Asia and European Countries

Message from the Guest Editors

Cereals are affected by various viruses, which are the most difficult pathogens to control since once a viral disease has established on a field, there are no means by which it can be eradicated. Many countries are addressing this challenge and are making important contributions to virology research over the years. Looking for high-quality science developed in the face of unique challenges, we encourage researchers to submit articles to this Special Issue entitled "State-ofthe-Art Cereal Virus Diseases in Asian and European Countries." This Special Issue's goal is to publish research studies that address efforts for cereal virus diagnosis, diversity of virus population, host resistance, transmission, prevention and control in Asian and European countries. Investigations on pathogenesis of virus infection are also welcome, as well as relevant epidemiological findings. Both original manuscripts and reviews are welcome.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
