# **Special Issue**

# Elimination of Viral Hepatitis: Improving Diagnosis, Treatment and Surveillance

## Message from the Guest Editors

This Special Edition of *Viruses* will explore key challenges in the global elimination of viral hepatitis. It will particularly focus on three broad areas of research that are all needed to reduce the global burden of viral hepatitis. First, it will report innovations in diagnostics to improve and simplify the process of obtaining a reliable, low-cost, and quick diagnosis. Second, it will explore novel pathways that link people to care and treatment, making treatment services acceptable and reducing stigma. Third, it will examine surveillance systems and interventions in healthcare data to monitor progress toward elimination. This edition will encourage submissions from cross-disciplines including epidemiology, clinical, health services, and social research focused on viral hepatitis.

### **Guest Editors**

Dr. Joseph Doyle

The Alfred, Monash University and Burnet Institute, Melbourne, Australia

#### Dr. Amanda Wade

- 1. Disease Elimination, Burnet Institute, Melbourne, Australia
- 2. Department of Infectious Diseases, Barwon Health, Geelong, Australia.

### Deadline for manuscript submissions

closed (30 September 2022)

## **About the Journal**

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

### **Editor-in-Chief**

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

### Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
