Special Issue

Host Factors in Viral Infections

Message from the Guest Editors

When viruses infect their hosts, they conscript normal cellular processes and exploit them to enable their replication and ability to cause disease. Hosts have evolved defenses against virus infection, and viruses have consequently evolved the means to evade these defenses. Because of this ongoing evolutionary arms race, the host response to infection is a crucial determinant of pathogenesis. However, major gaps remain in our understanding of the interactions between host and pathogen that contribute to disease. For this Special Issue of *Viruses*, entitled "Host Factors in Virus Infections", we invite original research, review, and perspective pieces focusing on the host-pathogen interface.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
