

Special Issue

Infectious Bronchitis Virus

Message from the Guest Editors

Following the success of the Special Issue “Infectious Bronchitis Virus,” we are editing a 2022 edition of this topic for new submissions. The main topic of this Special Issue is an agriculturally important avian virus, infectious bronchitis virus, that affects not only the production of meat-type birds but also the quality and production levels of eggs from layer and breeder birds worldwide. The main topics of this Special Issue include the development of rationally attenuated vaccines and diagnostic methods for the better control of infectious bronchitis virus, the investigation of the epidemiology, tissue tropism, antigenicity and pathogenicity determinants of the infectious bronchitis virus and other topics of infectious bronchitis and infectious bronchitis virus.

About the Journal

Message from the Editor-in-Chief

Viruses (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
