

Special Issue

Infectious Bronchitis Virus

Message from the Guest Editors

Following the success of the Special Issue “Infectious Bronchitis Virus,” we are editing a 2022 edition of this topic for new submissions. The main topic of this Special Issue is an agriculturally important avian virus, infectious bronchitis virus, that affects not only the production of meat-type birds but also the quality and production levels of eggs from layer and breeder birds worldwide. The main topics of this Special Issue include the development of rationally attenuated vaccines and diagnostic methods for the better control of infectious bronchitis virus, the investigation of the epidemiology, tissue tropism, antigenicity and pathogenicity determinants of the infectious bronchitis virus and other topics of infectious bronchitis and infectious bronchitis virus.

Guest Editors

Prof. Dr. Shengwang Liu

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
