Nonprimate Lentivirus

Message from the Guest Editors

Nonprimate lentiviruses, notably lentiviruses of felids, equids, and ruminants, are important worldwide pathogens that cause chronic lifelong disease in a species-specific manner. Viral pathogenesis, epidemiology, viral ecology and evolution, host restriction and immunological perturbations caused by these agents have important implications in naturally occurring infections in native hosts. Studies of the comparative pathogenesis and prophylactic or interventional therapies for these agents can significantly advance our understanding of HIV-AIDS. This Special Issue of *Viruses* will provide reviews, contemporary research reports, and commentaries about these fascinating and often overlooked agents.

Guest Editors

Prof. Dr. Sue VandeWoude

Department of Microbiology, Immunology, Pathology, College of Veterinary Medicine and Biomedical Sciences, Colorado State University, CO 80523, USA

Prof. Dr. Xiaojun Wang

State Key Laboratory of Veterinary Biotechnology, Harbin Veterinary Research Institute, Chinese Academy of Agricultural Sciences, Harbin 150001, China

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
