Special Issue

Advances in Parvovirus Research 2020

Message from the Guest Editor

This Special Issue on 'Advances in Parvovirus Research 2020' is associated to the conference "XVIII International Parvovirus Workshop", meant to take place in Rimini, Italy, in June 2021. The international workshops dedicated to parvoviruses, first held in 1985, are events strictly centred on all aspects of parvovirus research and provide excellent opportunities to focus the research topics in this area. The aim of this Special Issue of *Viruses* is to offer an opportunity to collect the newest contributions in the field of parvovirus research. Evolution, structural biology, viral replication, virus-host interaction, pathogenesis and immunity, clinical virology of medical and veterinarian relevance, gene therapy, and viral oncotherapy are a selection of the topics that will be addressed during the conference, as well as being of general interest to a wider audience. Symposium participants, as well as all researchers working in the field, are cordially invited to contribute original research papers or propose reviews to this Special Issue of Viruses.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
