

Special Issue

State-of-the-Art Porcine Viruses Research in Europe

Message from the Guest Editor

Taking into account the importance of pig production in numerous countries of Europe, the purpose of the forthcoming Special Issue is to discuss the most important topics related to swine diseases, including the aspects of prevention, epidemiology, control, and food safety. Therefore, I cordially invite you to submit your relevant papers to the upcoming Special Issue of *Viruses*. Your valuable input will hopefully enrich the current state of knowledge and practical approach to the global production of pigs.

- swine production
- porcine viruses
- biosecurity
- welfare in swine production

Guest Editor

Prof. Dr. Grzegorz Wozniakowski

Department of Diagnosis and Clinical Sciences, Faculty of Biological and Veterinary Sciences, Nicolaus Copernicus University in Toruń, Lwowska 1, 87-100 Toruń, Poland

About the Journal

Message from the Editor-in-Chief

Viruses (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
