Special Issue

Respiratory Viral Coinfection

Message from the Guest Editor

Respiratory virus infection is an important cause of morbidity and mortality in humans. With the advance in molecular diagnostic assays, multiple respiratory viruses are often detected in clinical specimens from patients with respiratory tract infection. The contribution of respiratory virus co-infection to the pathogenesis and clinical outcome of respiratory tract infection remains unclear for many viruses, especially for the SARS-CoV-2 that causes the COVID-19 pandemic. In this Special Issue, we welcome studies which addresses respiratory viral co-infection. The scope will include epidemiological, clinical, immunological, virological and diagnostic studies on respiratory virus co-infection.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
