

## Special Issue

# Transmission Dynamics of Insect Viruses

### Message from the Guest Editor

Insect viruses encompass a long and expanding list of not only emerging vector-borne human pathogens (Zika virus, chikungunya virus, dengue virus, Powassan virus) but also viruses that infect other mammals, plants, and insects which far outnumber the human pathogens. Unfortunately, we understand little of how insect viruses are transmitted, both horizontally and vertically, having large gaps in our knowledge of this process. In this Special Issue of *Viruses*, we will explore the transmission dynamics of insect viruses through a series of research and review articles focusing on the inter- and intra-host mechanisms insect viruses use for emergence, transmission, and spread. Together, these articles will begin to address unanswered questions and provide a platform for future studies on insect virus transmission.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
