

Special Issue

Virus-based Vaccines

Message from the Guest Editors

We are planning to publish a special issue of *Viruses* devoted to current trends in vaccine development for viral diseases. This issue will cover the diverse technologies that are currently being used for the development of rationally designed vaccines and will highlight both recombinant protein-based vaccines and the application of genomic (e.g. RNA-based) technologies in vaccine research. Work on both animal and human vaccines will be considered. In light of your expertise in the vaccine area, I would like to invite you to submit a review article on your subject for this special issue.

Prof. Dr. Charles Russell

Guest Editors

Prof. Dr. Polly Roy

Department of Pathogen Molecular Biology, London School of Hygiene, Tropical Medicine, London, UK

Dr. Charles J. Russell

1. Department of Infectious Diseases, St. Jude Children's Research Hospital, 262 Danny Thomas Place, Memphis, TN 38105-3678, USA
2. Department of Microbiology, Immunology, and Biochemistry, University of Tennessee Health Science Center, 858 Madison Avenue, Memphis, TN 38163, USA

Deadline for manuscript submissions

closed (30 April 2014)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
