

Special Issue

Vaccines for Emerging Zoonotic Viruses

Message from the Guest Editors

The aim of this Special Issue is to publish original papers and reviews on both the development of prophylactic and therapeutic vaccines against zoonotic viruses and basic virology and immunology studies that may inform vaccine design, including viral structure, virus surveillance/evolution, virus-host interactions, viral pathogenesis, and protective host immune responses.

Keywords:

- vaccine
- emerging viruses
- zoonosis
- coronavirus
- flavivirus
- alphavirus
- innate immunity
- adaptive immunity
- adjuvants

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
