

# Special Issue

## Virus Bioinformatics

### Message from the Guest Editors

This Special Issue is related to the Third Annual Meeting of the European Virus Bioinformatics Center which will be held at the University of Glasgow, Glasgow, UK, in March, 2019. Bioinformatics is focusing on bacteria and eukaryotic model organisms while virologists have an urgent need of virus-specific bioinformatical tools. Apart from pioneering work on HIV-1, HCV and influenza, these two communities have interacted surprisingly sporadically. This special issue will present articles covering computational approaches in virology, and we welcome any contributions within this cross-disciplinary field. Sub-topics include (but are not limited to): Virus detection, annotation, and comparison; quasispecies, phylogeny, and cophylogeny; virus–host interaction and replication; as well as drug design. We aim with this Special Issue for excellence and innovation with deep impact for a better, healthy world.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,  
National Cancer Institute, Frederick, MD 21702-1201, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
