

Special Issue

Virus Bioinformatics 2024

Message from the Guest Editors

This Special Issue is published alongside the International Virus Bioinformatics Meeting 2024 (<https://evbc.uni-jena.de/events/vibiom2024/>), taking place in Leuven, Belgium, on 28–30 May, 2024. ViBioM has become synonymous with scientific exchange and dialogue between different disciplines, and attracts some of the most influential scientists in virus bioinformatics. This Special Issue presents original research articles and review papers covering the recent advancements and our current understanding of the computational technological aspects of virology. Scientific results of interdisciplinary research are often difficult to publish in journals in either area. To facilitate publications in the field of virus bioinformatics, the European Virus Bioinformatics Center has been running this recurring Special Issue since 2019. We encourage you to publish your work in this Special Issue and present it at ViBioM 2024. However, this is not an obligation for publication. All papers should be submitted online at <https://www.mdpi.com/journal/viruses>. Please select the correct Special Issue when submitting your paper to *Viruses*.

Guest Editors

Prof. Dr. Manja Marz

Bioinformatics and High-Throughput Analysis and European Virus Bioinformatics Center, Friedrich Schiller University Jena, Jena, Germany

Dr. Franziska Hufsky

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
