

Special Issue

Women in Virology

Message from the Guest Editors

We are delighted to present this special collection of articles highlighting the achievements of women scientists in virology from all around the world. This Special Issue is devoted to presenting research performed by early and advanced career scientists who are women. We cordially invite you to submit your work performed across all areas of virology including human, animal, eukaryotic, prokaryotic or plant virology. We welcome you to present your latest discoveries in fields such as immunology, structural biology, molecular virology, therapeutics or vaccines, and we especially welcome manuscripts relevant to the current SARS-CoV-2 outbreak. These are only some of the topics of interest, and you are welcome to add new ones and contribute to a high-impact Special Issue. Communications, original research papers, and review articles are welcome. Biographies or articles celebrating outstanding virologists who are women are also welcome. Articles where the lead authors are women are encouraged; however, we welcome submissions from all authors, irrespective of gender.

Guest Editors

Prof. Dr. Susana Tereno Valente

Prof. Dr. Barbara Baker

Prof. Dr. Sharon Lewin

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
