Sensory and Working Memory: Stimulus Encoding, Storage, and Retrieval

Guest Editors:

Dr. Haluk Ögmen

Daniel Felix Ritchie School of Engineering & Computer Science, University of Denver, Denver, CO, USA

Dr. Srimant Tripathy

School of Optometry and Vision Science, Faculty of Life Sciences, University of Bradford, Bradford, West Yorkshire, England

Deadline for manuscript submissions:

closed (30 November 2021)

Message from the Guest Editors

Dear Colleagues,

Human memory consists of three main distinct stores: sensory memory, short-term/working-memory, and long-term memory. In the last decade, there have been extensive studies on working memory in terms of its capacity, encoding (slot versus resource), stages, neural correlates, and how information is stored as a function of stimulus conditions. The goal of this issue is to bring together the most recent work in these related areas to offer a contemporary synthesis of our understanding of these memory stages and their operation in a single issue.

Dr. Haluk Ögmen

vision

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Andrew Parker

Department of Physiology,
Anatomy and Genetics, University
of Oxford, Oxford OX1 3PT, UK

Message from the Editor-in-Chief

Vision research has developed tremendously over the last years and has been well served by some of the available journals. We feel that a new journal, with no historical or societal affiliations, offers a chance for a broad interdisciplinary coverage and a means of highlighting the increasing number of interesting results and ideas. We are therefore convinced that the launch of a truly interdisciplinary journal in the area of vision science is worthwhile, timely and necessary. *Vision* is a journal for, and by, all vision scientists, committed to the advancement of their field of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, PMC, and other databases.

Journal Rank: CiteScore - Q2 (*Ophthalmology*)
