

Special Issue

Vision in Aquatic Environment

Message from the Guest Editors

We invite original and review papers on a wide range of topics related to vision in aquatic environments. We expect to receive papers related to the following topics:

- Interface between air and water;
- Color vision in aquatic habitats;
- Polarization vision in aquatic habitats;
- Vertical migration;
- Vision in deep sea.

Guest Editors

Dr. Misha Vorobyev

Department of Optometry and Vision Science, The University of Auckland, Auckland 1142, New Zealand

Dr. Luis Nahmad-Rohen

Institute of Marine Science, University of Auckland, Auckland, New Zealand

About the Journal

Message from the Editor-in-Chief

Vision research has developed tremendously over the last years and has been well served by some of the available journals. We feel that a new journal, with no historical or societal affiliations, offers a chance for a broad interdisciplinary coverage and a means of highlighting the increasing number of interesting results and ideas. We are therefore convinced that the launch of a truly interdisciplinary journal in the area of vision science is worthwhile, timely and necessary. *Vision* is a journal for, and by, all vision scientists, committed to the advancement of their field of interest.

Editor-in-Chief

Prof. Dr. Andrew Parker

Department of Physiology, Anatomy and Genetics, University of Oxford,
Oxford OX1 3PT, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Ophthalmology) / CiteScore - Q2 (Optometry)
