Message from the Guest Editors

On November 7, 2022, China University of Geosciences (Beijing) celebrates its 70th anniversary. On this occasion, a special issue of Water Science Research in China University of Geosciences University is organised to commemorate the University's 70th Anniversary. This special issue aims to collect high-quality and complete research articles or reviews on water science research. All the researchers, especially professors and students of China University of Geosciences (Beijing), are strongly welcome to contribute. All received articles will be published at the first time and displayed on the website of the special issue.

Potential topics in this special issue include but are not limited to the following:

- Water related disasters (such as floods, debris flows, and landslides)
- Artificial intelligence in water science research
- Wastewater treatment and reuse
- Water resource utilization
- Hydrological modeling
- Water pollution
- Water system.....

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
