## Nature Based Solutions as Urban Blue-Green-Brown Infrastructures

Guest Editors:

**Dr. Fabio Masi**

**Dr. Anacleto Rizzo**

**Eng. Martin Regelsberger**

**Dr. Fulvio Boano**

Deadline for manuscript  
submissions:

**closed (20 December 2021)**

### Message from the Guest Editors

Nature based solutions (NBS) are approaches able to provide answers to meet the SDG by adopting Urban Blue-Green-Brown Infrastructures. Urban NBS are many (green walls, green roofs, open water bodies, infiltration and evapotranspiration features, etc...). [Access to More Details of the Special Issue](#)

This Special Issue launches a call for papers to disseminate and share findings on similar practices of sustainable water management in addressing problems and opportunities scientifically.

Papers are selected by a rigorous peer review procedure with the aim of rapid and wide dissemination of research results, development and application in the wider area of sustainable water management and blue-green-brown approaches, strongly linked with a new circular economy concept and resources recovery practices.

## Editor-in-Chief

### **Dr. Jean-Luc PROBST**

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

## Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Water Resources*) / CiteScore - Q1 (Water Science and Technology)
