Persistent Toxic Substances (PTSs) Pollution: Current Status, Distribution and Evolution Trend in Waters

Guest Editors:

Prof. Dr. Chengkai Qu

State Key Laboratory of
Biogeology and Environmental
Geology, China University of
Geosciences, Wuhan, China

Dr. Jiji Li

National Engineering Research
Center for Marine Aquaculture,
Zhejiang Ocean University,
Zhoushan, China

Dr. Yu Cao

Wuhan Botanical Garden,
Chinese Academy of Science,
Wuhan, China

Message from the Guest Editors

This Special Issue welcomes the submission of original research and review articles on environmental processes and impacts associated with aquatic PTSs on a global or regional scale that contribute to increasing awareness of their environmental fate, potential, and impact on aquatic ecosystem and human health. Relevant topics include but are not limited to the following:

- research of sources and transport of PTSs in water;
- study on the ecotoxicology of PTSs in water;
- interaction between/among PTSs and the effects of mixture on aquatic organisms and human being;
- development of the technologies on PTSs detection and measurement.

Deadline for manuscript
submissions:

closed (20 November 2023)

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
