## Environmental and Energy Engineering

Guest Editors:

**Prof. Dr. Gordon Huang**

Faculty of Engineering and  
Applied Science, University of  
Regina, Regina, SK S4S 0A2,  
Canada

**Prof. Dr. Yongping Li**

School of Environment, Beijing  
Normal University, Beijing, China

**Dr. Chen Lu**

Institute for Energy, Environment  
and Sustainable Communities,  
University of Regina, Regina, SK,  
Canada

Deadline for manuscript  
submissions:

**closed (30 April 2022)**

### Message from the Guest Editors

This Special Issue presents recent research findings and technological developments related to environmental and energy engineering. We welcome research articles and critical reviews on the following topics:

- Ecology and biodiversity conservation;
- Environmental pollution and management;
- Environmental hydraulics;
- Sustainable development;
- Environmental ergonomics;
- Air pollution from mobile and stationary sources;
- Climate change;
- Noise and acoustics;
- Electromagnetic waves and telecommunication;
- Hazardous waste and waste treatment;
- Renewable energy sources;
- Solar electricity and pv applications;
- Solar cell technology, solar cell materials, testing and efficiency;
- Solar thermal applications;
- Wind energy;
- Hydroelectric, geothermal, tides and waves;
- Biogas and biomass;
- Hybrid energy systems;
- Integrated energy systems.

## Editor-in-Chief

### Dr. Jean-Luc PROBST

Centre de Recherche sur la  
Biodiversité l'Environnement  
(CRBE) UMR  
CNRS/UPS/INPT/IRD, Centre  
National de la Recherche  
Scientifique (CNRS), University of  
Toulouse, Campus ENSAT,  
Auzeville Tolosane, Toulouse,  
France

## Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
