## Impacts of Climate Change on Extreme Hydro-Climatic Events: Droughts and Floods

Guest Editors:

**Dr. María Jesús Esteban Parra**

Departamento de Física Aplicada, Facultad de Ciencias, Universidad de Granada, Granada, Spain

**Dr. Matilde García-Valdecasas Ojeda**

Applied Physics Department, University of Granada, 18071 Granada, Spain

**Dr. Sonia Raquel Gámiz-Fortis**

Applied Physics Department, University of Granada, 18071 Granada, Spain

### Message from the Guest Editors

This Special Issue offers an opportunity to publish papers related to the impacts of climate change on extreme hydro-climatic events, specifically droughts and floods, but also those related to other extreme precipitation compound extreme events. Papers focused on observed and projected changes during the near and far future in the 21st century from different spatial scales and methodological approaches (statistical, physical, GCMs, downscaling, hydrological modeling, etc.) are welcome for submission. Papers dealing with climate change implications in topics such as water management are also of interest.

Deadline for manuscript submissions:

**31 December 2024**

## Editor-in-Chief

### **Dr. Jean-Luc PROBST**

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

## Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Water Resources*) / CiteScore - Q1 (Water Science and Technology)
