Impacts of Pollution on Coastal and Marine Ecosystems

Guest Editor:

Dr. Olivier Pringault

Mediterranean Institute of
Oceanography, Marseille, France

Deadline for manuscript
submissions:

closed (31 October 2020)

Message from the Guest Editor

The risk of environmental contamination by pollutants is particularly high in marine and coastal environments. The legislative and regulatory context provide many thematic motivations for basic research, including evaluation of biological and ecological effects of chemical contaminants with a particular attention on microorganisms considering their key role in the ecosystem. Tackling contamination by anthropic contaminants in marine ecosystems requires obtain information from different disciplines to (i) determine the bioavailability aof contaminants for the biota, (ii) assess their impact on the biota mostly using ecotoxicological and toxicological approaches, and (iii) propose mitigation measures using remediation tools to reduce contaminant toxicity. [...]

water

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Jean-Luc PROBST

Laboratory of Functional Ecology
and Environment, Centre
National de la Recherche
Scientifique (CNRS), University of
Toulouse, Campus ENSAT,
Auzeville Tolosane, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
