Message from the Guest Editors

Dear Colleagues,

This Special Issue is dedicated to the theme of humanitarian emergency WASH and seeks to capture the most up-to-date research and field experience curated to benefit practitioners, decision-makers, scientists, and engineers. Given the complexities of operating and researching in humanitarian contexts, relevant WASH research applied to development contexts will also be considered for this issue.

We would therefore like to call for original papers to disseminate and share research findings the theme of WASH in Humanitarian Contexts. Papers will be selected by a rigorous peer review procedure with the aim of rapid and wide dissemination of research results, development and application.

Prof. Caetano C. Dorea

Message from the Editor-in-Chief

The relevance of water in human development and sustaining life, fuels general and scholarly interest in the world's water resources. A better understanding of all aspects of water and its relation to food supply, energy production, human health, and the functioning of ecosystems is key in managing this precious resource in a sustainable, efficient and equitable manner. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the **Science Citation Index Expanded** (Web of Science), Ei Compendex and other databases.

CiteScore (2018 Scopus data): **2.66**, which equals rank 39/203 (Q1) in 'Water Science and Technology' and rank 34/204 (Q2) in 'Aquatic Science'.
