of Bari, Via E. Orabona, 4, 70125  
Bari, Italy

**Dr. Donatella Termini**

Department of Engineering,  
University of Palermo, Palermo,  
Italy

**Prof. Dr. Peter A. Davies**

Department of Civil Engineering,  
University of Dundee, UK

Deadline for manuscript  
submissions:

**closed (28 February 2018)**

### Message from the Guest Editors

Dear Colleagues,

You are kindly invited to submit a manuscript on any aspect of theoretical analysis and/or experimental results on river and maritime hydraulics, highlighting the most recent breakthrough(s) in the processes of contaminant and particle transport and mixing processes.

The papers will be published in a Special Issue of *Water*, with the main aim being to present the state-of-the-art knowledge of complex environmental flows to researchers and practitioners.

The content of the paper is at your discretion, but an overview of a particular topic of research in your area of expertise and an exposure of the current and future challenges associated with this topic would be particularly valuable.

Prof. Dr. Michele Mossa

Prof. Dr. Donatella Termini

Prof. Dr. Peter A. Davies

Recherche Scientifique (CNRS),  
University of Toulouse, campus  
ENSAT, Auzeville Tolosane,  
France

## Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
