

## Special Issue

# Modeling and Observations of Cold Regions Hydrosystems and Their Evolution Under Climate Change

### Message from the Guest Editors

This Special Issue invites contributions that explore the impacts of climate change on hydrological and biogeochemical processes in cold-region hydrosystems. **Keywords:** cold regions, high latitudes, high altitudes, biogeochemistry, hydrology, rivers; lakes; soil water; groundwater; floodplain; discharge, hydrochemistry; carbon; greenhouse gases; nutrients; trace metal; colloids

---

### Guest Editors

Dr. Oleg S. Pokrovsky

Geosciences and Environment Toulouse, UMR 5563 CNRS, 14 Avenue Edouard Belin, 31400 Toulouse, France

Dr. Liudmila S. Shirokova

Georesources and Environnement Toulouse, UMR 5563 CNRS, Université Paul Sabatier, 14 Avenue Edouard Belin, 31400 Toulouse, France

---

### Deadline for manuscript submissions

25 October 2026

## About the Journal

### Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
