Special Issue

Using Economics for Sustainability, Effective Management, and Conflict Resolution in Water

Message from the Guest Editors

Topics included in this Special Issue:

- Water economics and sustainability
- Adaptive management and resilience
- Wastewater treatment
- Economic policies and equity in water strategies
- Nature-based solutions
- Role of water in economic development
- Water technologies and innovations
- Transport on inland waterways
- Green economy and blue economy: Synergies for sustainable water resource management
- Conflict resolution
- Financial innovations for water
- Monitoring and evaluation of water quality and economic impact
- International cooperation and governance
- Water in the OneHealth framework
- Water and artificial intelligence

About the Journal

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse. France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
