

Special Issue

Urban Flood Risk Assessment and Management

Message from the Guest Editors

This Special Issue seeks contributions that advance understanding and practice in the assessment and management of urban flood risk in the context of climate change and socioeconomic development. We welcome the following:

- Original research on integrated urban flood assessments,
- Innovative approaches to urban flood risk management,
- Case studies and recent experiences from diverse contexts, and
- Comprehensive reviews synthesizing current knowledge and future directions.

By sharing contemporary insights and innovative solutions, we aim to contribute to shaping more resilient and sustainable urban futures. We look forward to your valuable contributions.

Guest Editors

Prof. Dr. Matjaž Mikoš

Research Institute on Geo- and Hydro-Threats (RIGHT), Faculty of Civil and Geodetic Engineering, University of Ljubljana, 1000 Ljubljana, Slovenia

Dr. Damir Bekić

Faculty of Civil Engineering, University of Zagreb, Fra Andrije Kačića-Miošića 26, 10 000 Zagreb, Croatia

Deadline for manuscript submissions

28 October 2026

About the Journal

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
