

## Special Issue

# Advances in Water and Stormwater Networks: Modelling and Pollutant Degradation

### Message from the Guest Editors

We invite you to submit a manuscript to our Special Issue, “Advances in Water and Stormwater Networks: Modeling and Pollutant Degradation”. *Water* is an international, cross-disciplinary, peer-reviewed, open access journal, featuring profound, cut-edge research papers and visionary perspectives. This journal welcomes contributions on all aspects of the science and technology of water reuse, water quality sensing, and water management. **A broad outline of the journal's scope includes:**

- Mathematical modeling, systems analysis and machine learning related to urban water networks and urban hydrological evaluation and prediction;
- Remediation processes for pollutants in water and the degradation transfer process;
- Contaminants in water (anthropogenic pollutants such as nanomaterials, microplastics, disinfection by-products, PPCPs, etc.) and water quality evaluation....

For further reading, please follow the link to the Special Issue Website at:

## About the Journal

### Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
