

Special Issue

Hydrology, Water Resources Management and Protection of the Marine Environment- Selected Papers from the 16th International Conference on Environmental Science and Technology (CEST2019)

Message from the Guest Editors

This Special Issue will include selected papers that were presented in the 16th International Conference on Environmental Science and Technology—CEST2019 (www.cest.gnest.org), which was held in Rhodes from 4 to 7 September 2019. The main aim of this Special Issue is to present the latest trends in the fields of hydrology, hydrological forecasting and services, and water resource management, as well as to deal with topics regarding the protection of the marine environment.

Guest Editors

Dr. Demetris Francis Lekkas

Department of Environment, University of the Aegean, Samos, Greece

Dr. Evangelos Baltas

Department of Water Resources and Environmental Engineering,
National Technical University of Athens, 5 Iroon Polytechniou Street,
15780 Athens, Greece

Deadline for manuscript submissions

closed (31 October 2020)

About the Journal

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Editor-in-Chief

Dr. Jean-Luc PROBST
