

Special Issue

Water Governance and Sustainable Water Resources Management, 2nd Edition

Message from the Guest Editors

We invite cutting-edge research on water management, with an emphasis on sustainable strategies for managing water resources under the pressures of climate change. Potential topics include, but are not limited to, the following:

- Innovative approaches to water governance;
- Sustainable management of water resources in different sectors;
- Climate change adaptation in water governance and policy;
- Spatial planning in riverside, coastal, and urban areas;
- Challenges of developing blue and green infrastructure in cities;
- Aquatic ecosystem restoration and ecological governance;
- Best practices in participatory and community-based water management;
- Social and stakeholder engagement in decision-making;
- Policy coherence, institutional frameworks, and cross-sectoral integration;
- Transboundary and regional water governance;
- Equity, justice, and inclusiveness in water governance;
- Governance of the water–energy–food nexus.

Guest Editors

Dr. Mariusz Adynkiewicz-Piragas

Prof. Dr. Leszek Kuchar

Dr. Alicja Edyta Krzemińska

Dr. Anna Zaręba

Deadline for manuscript submissions

28 September 2026

About the Journal

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
