

## Special Issue

# Feature Papers of Water Resources Management, Policy and Governance

### Message from the Guest Editors

This Special Issue aims to include papers by invited reputable researchers and engineers to cover issues of water resource management, governance, and policy. These issues may include the following topics:

- Integrated water resource management;
- Management of water resource systems and water availability;
- Monitoring and protection of water resources;
- National and international water policy, institutional arrangements, and water law;
- Water economics and commercialization of water;
- Water conflict resolution, public participation, and decision making;
- Water resource management, policy and governance in socially and environmentally sensitive areas and regions.

For more details, please check at,  
<https://www.mdpi.com/si/53005/>.

### Guest Editors

Prof. Dr. Athanasios Loukas

Department of Rural and Surveying Engineering, Aristotle University of Thessaloniki, 54124 Thessaloniki, Greece

Prof. Dr. Luis Garrote

Department of Civil Engineering: Hydraulics, Energy and Environment, Universidad Politécnica de Madrid, 28040 Madrid, Spain

### Deadline for manuscript submissions

closed (31 December 2021)

## About the Journal

### Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
