

## Special Issue

# Editorial Board Members' Collection Series: The Impact of Climate Change on Water Resources

### Message from the Guest Editors

In order to show our gratitude to our Editorial Board Members, we are launching a Special Issue entitled "Editorial Board Members' Collection Series: The Impact of Climate Change on Water Resources". This Special Issue will be composed of feature papers selected by the Editorial Board Members. We invite researchers to submit high-quality papers related to the impact of climate change on water resources. These can encompass the following: urban water supply, urban drainage, sponge cities, stormwater harvesting, rainwater use in buildings, green roofs, permeable pavement systems to filter stormwater, urban water contamination, the effects of urbanisation, sustainable development, urban wastewater reuse, flood risk management, water resources, and climate change, among others.

### Guest Editors

Prof. Dr. Enedir Ghisi

Prof. Dr. Rafael J. Bergillos

Prof. Dr. Ognjen Bonacci

Dr. Cesar Andrade

### Deadline for manuscript submissions

10 January 2026

## About the Journal

### Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
