

Special Issue

Socio-Hydrogeology in Groundwater Resources Assessments and Management

Message from the Guest Editors

With this Special Issue, we would like to foster the discussion for all interested in interdisciplinary research, thus presenting the challenges and opportunities within this emerging research field. We encourage case studies, reviews, or theoretical approaches on the following topics:

- Examples of socio-hydrogeological assessments
- Participatory approaches in socio-hydrogeology, including, for example, stakeholder's analysis, public engagement
- Multidisciplinary frameworks to tackle groundwater issues
- Challenges and opportunities raising from the integration of hydrogeology and social sciences and from inter- and transdisciplinary cooperation
- Approaches including water's social and political nature
- Reciprocity between people and groundwater

About the Journal

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
