

Special Issue

The Ecological Effects of Micro(nano)plastics in the Water Environment

Message from the Guest Editors

This Special Issue is designed to serve as a collection of the latest work on conventional plastics and bioplastics. It is also intended to be a valuable review of achievements and deficiencies of the field which can serve as a basis for defining new frontiers in plastic research. This call is open to all studies that address the potential toxicity of conventional plastic and bioplastics (biodegradable and non-biodegradable), compare their toxicity, and evaluate the ecological consequences of plastic pollution, preferably but not limited to using a set of methods applicable for different levels of biological organization.[...]

About the Journal

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
