

Special Issue

Rainwater and Stormwater Harvesting for Sustainable Water Cycle Management

Message from the Guest Editor

This Special Issue will cover recent developments in both rainwater harvesting from roof catchments and stormwater harvesting from both pervious and impervious surfaces. It will cover all relevant issues on this field, such as mathematical modelling, risk assessment, flooding, water quality, sustainability, life cycle assessment, food–energy nexus and climate change-related issues.

Guest Editor

Prof. Dr. Ataur Rahman

Renewable Energy and Water Research Group (Sustainability and Resilience Theme), School of Engineering, Design and Built Environment, Western Sydney University, Penrith, Australia

About the Journal

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
