

## Special Issue

# Water- and Foodborne Pathogens in Agricultural and Urban Aquatic Ecosystems

### Message from the Guest Editors

With intensification of agriculture and urban development, our surface- and groundwater are becoming more vulnerable to water- and foodborne human and animal-associated pathogen contamination, stemming from various point and non-point sources of fecal pollution that can contribute to disease outbreaks, economic losses in livestock, contamination of irrigated fresh produce, and diseases in wildlife.

### Guest Editors

Dr. Izhar Khan

Agriculture and Agri-Food Canada, Ottawa Research and Development Centre, 960 Carling Ave., Ottawa, ON K1A 0C6, Canada

Dr. Amir Abdulmawjood

Foodborne Zoonoses Institute of Food Quality and Food Safety, Research Center for Emerging Infections and Zoonoses (RIZ), University of Veterinary Medicine Hannover, Bünteweg 17, 30559 Hannover

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Aquatic Science)
