Deadline for manuscript
submissions:

30 June 2022

Message from the Guest Editors

The aim of this Special Issue is to collect the latest developments from researchers working in the field of electrical machines and drives.

Prospective authors are invited to submit original contributions that include, but are not limited to, the following topics of interest:

- Design, analysis and applications of electrical machines;
- Optimization algorithms;
- Control techniques;
- Machine fault detection and fault-tolerant control;
- Motor drive systems;
- Modelling and performance evaluation of electrical machines and drives;
- Power electronic converter topologies for motor drives.

Prospective authors are highly encouraged to submit technical surveys and review papers for the possible publication in this Special Issue “**Design, Analysis and Optimization of Electrical Machines and Drives**” of the *World Electric Vehicle Journal*.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The *World Electric Vehicle Journal* is the official journal of World Electric Vehicle Association (WEVA) and its members the European Association for Electromobility (AVERE), the Electric Drive Transportation Association (EDTA), and the Electric Vehicle Association of Asia Pacific (EVAAP). Since its foundation in 2007, the journal aims to provide a publishing platform for the academic and industrial world to share the latest developments and knowledge about electric vehicles. If you are developing Electric, Plug-in Hybrid, Hybrid Electric, or Fuel Cell Vehicles, we cordially invite you to consider us as the place for you to publish your latest results and innovations.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [Ei Compindex](#), and many [other databases](#).

Journal Rank: [CiteScore](#) - Q2 (*Automotive Engineering*)
