

## Special Issue

# Research Gaps and Misperceptions in Reproduction and Their Impact on Women's Health

### Message from the Guest Editors

Women and men have distinct biological roles in reproduction. Both women and men provide gametes that create the embryo and the resulting fetus. Women then carry the fetus during pregnancy and provide nutrition at the beginning of life. This asymmetry in women's and men's biological roles has led to a spectrum of social misperceptions, medical inequalities, psychological challenges, and research gaps, which are detrimental to women's and men's health. In this Special Issue, we plan to publish research articles, reviews, and opinion pieces that touch directly or indirectly on women's reproduction. We look forward to contributions from biological, medical, social, psychological, ethical, or any other relevant perspectives.

### Guest Editors

Prof. Dr. Tomer Avidor-Reiss

Dr. Samantha Beth Schon

Dr. Angela K. Lawson

Dr. Deborah Ikhenaa-Abel

### Deadline for manuscript submissions

closed (31 October 2023)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Maria Grazia Porpora

Department of Maternal Infantile and Urological Sciences, Policlinico  
Umberto I, Sapienza University of Rome, 00161 Rome, Italy

---

#### Author Benefits

##### High Visibility:

indexed within ESCI (Web of Science) and other databases.

##### Journal Rank:

JCR - Q2 (Womens Studies) Rapid Publication:  
manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 15.1 days after  
submission; acceptance to publication is undertaken in 4.7  
days (median values for papers published in this journal in  
the first half of 2025).

##### Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and  
reviewer names published annually in the journal.
