AI-Powered Horizons: Shaping Our Future World

Message from the Guest Editors

Dear Colleagues: The field of artificial intelligence (AI) is undergoing rapid advancements, significantly influencing various industries and fundamentally altering human interaction with technology. The scientific community recognizes AI's transformative potential, particularly in autonomous systems, digital transformation, and intelligent automation domains. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Autonomous Systems;
- AI Enabled Manned and Unmanned Teaming;
- Digital Transformation;
- AI-enabled Digital Twins;
- Intelligent Automation;
- Human–Machine Interaction;
- Smart Cities;
- AI Ethics;
- AI in Healthcare;
- Technological Singularity.

We look forward to receiving your contributions.
