### Message from the Guest Editor

Dear colleagues,

This Special Issue aims to explore the intersection between corporate governance, corporate social responsibility, and corporate performance. (1)

Introduction: We will provide a comprehensive overview of the scientific background, outlining the evolution of corporate governance, corporate social responsibility, and the growing significance of how these impact corporate performance. (2) Aim of the Special Issue: Our objective is to bridge the gap between governance, corporate social responsibility, and corporate performance through both qualitative and quantitative analysis, which falls within the journal's scope. In this Special Issue, we welcome original research articles and reviews, offering diverse perspectives and insights into the Sustainable Development Goals. Contributors are encouraged to explore interdisciplinary approaches, enhancing our understanding of sustainable business practices in a rapidly changing world. We look forward to receiving your contributions.
