

Special Issue

World Development under COVID-19: Advanced Researches on Societal Impacts and Drivers

Message from the Guest Editor

We are primarily, interested in the empirical effects of COVID-19 on people's socio-economic and political life; however, other topics will also be considered. Examples include the impacts of COVID-19 on travel; entertainment use and provision; the use and provision of education services at all levels; tourism; consumption; employment; unemployment; portfolio investment; company investment; public and private saving, borrowing and lending; paying taxes; spending on durable goods; defaulting on personal and national debt obligations; using and providing healthcare services; using and providing environmental health services; access and eligibility to healthcare and environmental health services; public following of government measures to combat the pandemic; participating in politics and civic society; volunteering, migrating within and across national borders; host region/country accepting or rejecting immigrants; protesting; demonstrating; respecting law and order; crime; individuals and organizations acting against/for governments; provision of foreign aid by governments and multilateral organization; and using armed force for political purpose within and across countries.
