

an Open Access Journal by MDPI

# Advances in Thermal, Electrical and Mechanical Properties of Polymer Composites

Guest Editors:

#### Prof. Dr. Gabriel Pinto

Department of Industrial and Environmental Chemical Engineering, E.T.S.I. Industriales, Technical University of Madrid, Madrid, Spain

## Prof. Dr. Victoria Alcázar Montero

Department of Industrial and Environmental Chemical Engineering, E.T.S.I. Industriales, Technical University of Madrid, Madrid, Spain

## Dr. Marina Patricia Arrieta Dillon

Department of Industrial and Environmental Chemical Engineering, E.T.S.I. Industriales, Technical University of Madrid, Madrid, Spain

Deadline for manuscript submissions:

30 September 2024

# **Message from the Guest Editors**

In recent decades, new polymer composites have important applications in uses as diverse as construction. electronic devices, packaging, agricultural mulch films, biomedical engineering and sports. The great versatility of polymers allows access to materials with very different properties, simply by changing the nature of the monomers, the degree of polymerization or architecture of the chains; in addition, their properties can be modified and improved by incorporating reinforcing In the search for specific properties, the characterisation of these composite materials, with emphasis on thermal, electrical and mechanical properties, is essential. This characterisation can be from different perspectives, approached such modelling theoretical. and experimental Knowledge of these properties, in addition to contributing to a better understanding of the relationship among structure, properties and the manufacture of new materials, plays an essential role in the analysis of the useful life and recycling of these materials.

#### Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

# **Message from the Editor-in-Chief**

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (Polymers and Plastics)
